

2009 AWSC National Specialty

**CHIC Blood Draw Clinic
at Elk Lake Heritage Preserve**

Friday Aug. 7, 1-4 p.m.

Cost \$10 per dog

The Health and Genetics committee is sponsoring a blood draw to add DNA samples from AWS dogs to the Canine Health Information Center (CHIC) DNA Repository. Dogs must be AKC-registered to participate.

The Repository is jointly sponsored by the Orthopedic Foundation for Animals and the AKC Canine Health Foundation. It serves as an accessible central location to provide researchers with optimized family groups and will allow breeders to take advantage of future DNA-based tests. This should greatly reduce requests for each breed to donate blood to multiple studies!

CHIC has a special form that needs to be completed for each dog that has its blood drawn. This form is available on the AWSC Website or:

Kathy Wiederholt 701-652-1230 / katron@daktel.com

Advance registration requested and appreciated!

Event underwritten by H&G Calendar-sales funds.

CHIC Blood Draw Reservation

Name(s) _____

Address _____

City _____ State _____ Zip _____

Number of dogs for blood draw _____ x \$10.00 = _____

By **July 15th**, return this completed form along with the completed CHIC form and check payable to AWSC, Inc. to:
